

3D virtual tour

Board book

Fullhouse

Our Porsche Experience Center in a variable 3D view. To do this, click directly in a room or display the different floors with their areas.

Floor plan

Our Porsche Experience Center in frontal view. Select areas or floors.

Cane selector

Click on the desired floor and explore.

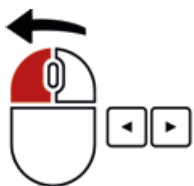

Full screen display

By clicking you can enjoy the tour on your complete screen, i.e. in full size, and also reduce it again.

Move

With the various mouse functions, you can move freely around our Porsche Experience Center.

Click and drag to view the desired area or use the arrow keys to rotate left or right.

Click on the rings on the floor to move around or alternatively use the arrow keys. If you want it to go faster, you can also just click on the floor to reach the desired room. Use the stairs to get to the next floor.

You can zoom in and out using the **scroll** wheel.

Information

We have left a lot of interesting background information for you on your discovery tour.

Info tags

By moving your mouse over the red info tags, the information stored there immediately appears in the form of text, image, video or even a further link.

Info tags half

For better orientation, the half info tags appear in some cases. Background information for another level is stored there. This way you always know immediately where you are.
